## والعلامات حتى 20 فبراير 2018

Holy\_bible\_1

اكرر هدفي فقط من هذه الخدمة أن نذكر بعضنا باننا نحتاج ان نستعد أي حياة اليقظة الروحية. والاستعداد ليس فقط قبل مجيء المسيح بل ايضا قبل الظلمة التي ستسبق مجيؤه ليكون عندنا زيت في مصابيحنا يكفي ان نعبر هذه الظلمة وتكون مصابيحنا مضيئة وقت مجيؤه او من منا سيسلم وديعته في أي وقت. بمعنى نحتاج من الان ان نستعد بقوة بأيمان عامل وبتنقية القلب وان نثمر بالخدمة أي نجمع زيت في مصابيحنا لان الظلمة والضيقة اقتربت جدا ومن لن يستعد لها بزيت كافي من الان لن يجد زيت في الضيقة لان وقتها تجميع زيت سيكون صعب جدا بل أستطيع ان أقول من مثل العذاري انه لن يكون هناك زيت الا ما جمعته سابقا.

أفضل ان اقول لنفسي ولكم استعدوا الان لأنه اقترب فنكون مستعدين سواء جاء او نحن ان سلمنا وديعتنا عن أنى لا اقول انه اقترب لكيلا يقال عني كاذب وانشر اشاعات او اخيف البعض

ولكنه يأتي بسرعة بغته. لا اعتقد اي أحد ندم لأنه كان مستعد ومنتظر مجيء المسيح ولم يأتي

المسيح في زمنه ولكنه انتقل وهو مستعد ولكن كثيرين جدا ندموا على عدم الاستعداد عندما

انتقلوا

المسيح قال بعض العلامات مثل

انجيل لوقا 21

21: 10 ثم قال لهم تقوم امة على امة ومملكة على مملكة

21: 11 وتكون زلازل عظيمة في اماكن ومجاعات واوبئة وتكون مخاوف وعلامات عظيمة من

السماء

21: 25 وتكون علامات في الشمس والقمر والنجوم وعلى الارض كرب امم بحيرة البحر والامواج

تضج

21: 26 والناس يغطى عليهم من خوف وانتظار ما يأتي على المسكونة لان قوات السماوات

تتزعزع

21: 27 وحينئذ يبصرون ابن الانسان اتيا في سحابة بقوة و مجد كثير

سفر اعمال الرسل 2

2: 19 واعطي عجائب في السماء من فوق وآيات على الارض من أسفل دما ونارا وبخار دخان

2: 20 تتحول الشمس الى ظلمة والقمر الى دم قبل ان يجيء يوم الرب العظيم الشهير

2: 21 ويكون كل من يدعو باسم الرب يخلص

لماذا قال المسيح بعض العلامات؟

أولا لكيلا نرتاع

انجيل متى 24

مت 24: 6 وسوف تسمعون بحروب واخبار حروب **لا ترتاعوا** لأنه لا بد ان تكون هذه

كلها ولكن ليس المنتهى بعد

ثانيا لنؤمن

انجيل يوحنا 14: 29

وَقُلْتُ لَكُمْ الْآنَ قَبْلَ أَنْ يَكُونَ، حَتَّى مَتَى كَانَ تُؤْمِنُونَ.

ثالثا لنتنبه ونستعد

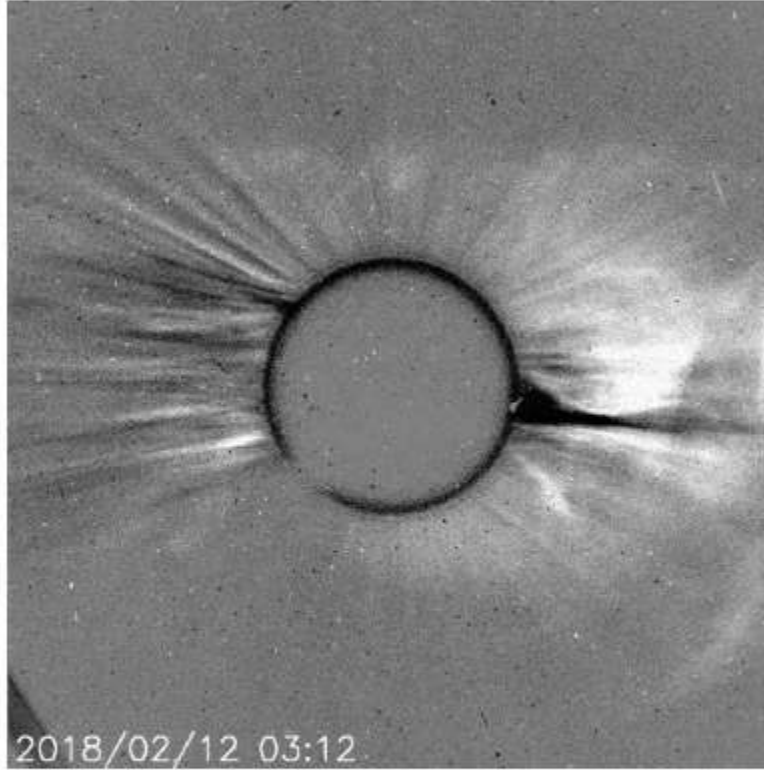

انجيل لوقا 21

28 وَمَتَى ابْتَدَأَتْ هَذِهِ تَكُونُ، فَانْتَصِبُوا وَارْفَعُوا رُؤُوسَكُمْ لِأَنَّ نَجَاتَكُمْ تَقْتَرِبُ.»

**SUNSPOT EXPLODES, HURLS CME AT EARTH:** On Feb. 12th, the magnetic canopy of sunspot AR2699 exploded--for more than 6 hours. The slow-motion blast produced a [C1-class](#) solar flare and hurled a coronal mass ejection (CME) almost directly toward Earth. This movie from the Solar and Heliospheric Observatory (SOHO) shows the CME leaving the sun:

The CME could arrive as early as Feb. 14th, although Feb 15th is more likely. NOAA forecasters say there is a 60% chance of [G1-class](#) geomagnetic storms with isolated periods of stronger [G2](#) storming. The effectiveness of the CME could be enhanced by a stream of solar wind that was already en route to Earth when the sunspot exploded. If the approaching CME sweeps up plasma from that stream, snowplow-style, it could strike Earth's magnetic field with extra potency.

## Earthquake swarm in Iceland intensifies: M5.2 and M4.5 earthquakes top the series now counting more than 2000 earthquakes since four days

By Strange Sounds · Feb 19, 2018 · 4

People are constantly being shaken awake on Grimsey Island, in North Iceland. A M5.2 earthquake hit around 5:30 this morning. One hour later a M4.5 quake hit the same region, which is under high seismic activity with more than 2,000 earthquakes detected since February 14th. Both tremblors as well as more than 6 aftershocks were felt by residents of the island. This is not the first swarm to occur in the area, though such an active one has not occurred since 1988, nearly 30 years ago.

U.S. fisheries officials are raising the alarm about fatalities among another whale species after 28 confirmed minke whale deaths along the East coast in the past year, more than double the annual average.

The National Oceanic and Atmospheric Administration has declared the deaths an "unusual mortality event" and launched an investigation, covering Maine to Florida.

It is the first time the U.S. agency has simultaneously investigated the deaths of three different large whale species in the same geographic area, NOAA Fisheries officials confirmed during a teleconference on Wednesday.

U.S. officials warn 'intense' flu season to continue, urge shots

(Reuters) - Adults who get a flu shot are 36 percent less likely to get the disease, while for children the figure was an unexpectedly high 59 percent, U.S. health officials said on Thursday, predicting that the current "intense" season could continue for weeks.

Anyone not already immunized should get a flu shot despite the lateness of the season, because "some protection is better than none," one of the officials told a news briefing.

## Could diabetes be triggered by a virus? Alert as scientists identify pathogens that could derail insulin in the body

- The exact cause of types 1 and 2 diabetes is not known
- Proteins in viruses that mimic insulin may trigger type 1 by tricking the body into thinking the hormone is an invader
- Tissues may become resistant to insulin due to the similar viral proteins, causing type 2 diabetes
- The Harvard researchers found the insulin-like proteins in four viruses, but think their research could be 'the tip of the iceberg'

Viruses may trigger both type 1 and type 2 diabetes because they contain proteins that mimic insulin, a surprise discovery suggests.

People suffering from both forms of diabetes have shortages of the sugar-metabolizing hormone insulin, but the underlying causes of the disease are largely unknown.

Researchers at Harvard University found that four kinds of viruses produce proteins that mimic insulin, which could lead to diabetes in humans exposed to the microorganisms.

It is not yet clear if humans can get the particular viruses the researchers studied, but the discovery indicates that viruses and other microbes could play a key role in causing diabetes and even other diseases, the researchers say.

# Nigeria releases 475 Boko Haram suspects for rehabilitation

BY REUTERS ON FEBRUARY 18, 2018 • ( LEAVE A COMMENT )

ABUJA (Reuters) – A Nigerian court has released 475 people allegedly affiliated with Boko Haram for rehabilitation, the justice ministry said on Sunday, as the country's biggest legal investigation of the militant Islamist insurgency continues.

The first person convicted for the kidnapping in 2014 of Chibok schoolgirls, sentenced to 15 years' imprisonment last week, was also handed an addition 15-year sentence, to run back-to-back, the justice ministry said in a statement.

More than 20,000 people have been killed and two million forced to flee their homes in northeastern Nigeria since Boko Haram began an insurgency in 2009 aimed at creating an Islamic state.

But humanitarian groups have criticized the Nigerian authorities' handling of those detained for infringing on the suspects' rights.

Some of those whose cases were heard last week in a detention center in central Nigeria had been held without trial since 2010, according to the justice ministry statement.

"The prosecution counsel could not charge them (with) any offence due to lack of sufficient evidence against them," the ministry said.

In October, the ministry said 45 people suspected of Boko Haram links had been convicted and jailed. A further 468 suspects were discharged and 28 suspects were remanded for trial in Abuja or Minna.
